

Poly-Ash Mouldings

POLY-ASH MOULDINGS FABRICATED FROM BORAL TRUExTERIOR® TRIM

Exceptional features without the limitations.

WOLF's new Poly-Ash Mouldings are fabricated from Boral TruExterior® Trim, the pioneer of the Poly-Ash category of reliable exterior trim. Give your project the finishing touch with these revolutionary mouldings that offer exceptional performance, remarkable workability and a great, long-lasting look without the limitations of wood or PVC.

Our Poly-Ash Mouldings are available in a wide variety of lengths, widths and decorative profiles. Painting Boral TruExterior® Trim is a requirement. Mouldings can be painted any color, but failure to paint them will void the warranty. These low-maintenance mouldings cut, rout, mill and miter with ease and are resistant to rotting, cracking, splitting and termites.

Poly-Ash Mouldings are ideal for ground contact and are comprised of more than 70% recycled material. They are covered under Boral TruExterior® Trim's 20-Year Limited Warranty

Poly-Ash Mouldings Feature

- Comprised of more than 70% recycled material
- Cut, rout and mill with ease
- Resistant to rotting, cracking, splitting and termites
- Maintain a high level of dimensional stability during periods of moisture and temperature change
- Ideal for ground contact
- Do not require end-sealing or special adhesives
- Can be painted any color

LEADER OF THE PACK
